

ABSTRACT

Dini Mustika Buana Putri, 2015, 1403100005, “The Study of Interior of Autistic Preschool Classroom at Our Dreams Bandung Therapy Clinic”. *Skripsi*, Bachelor of Interior Design, Faculty of Creative Industry, Telkom University.

Along with the increase in the prevalence of autism in Indonesia, the emergence of therapy clinic for autism is also increasing; one of them is Our Dream therapy clinic in Bandung. There should be a serious attention on how the layout of the room is designed since most of autistic children have a different sensation towards their environment compared to humans in general. Accordingly, the basic elements of interior design of classrooms addressed for autistic children should consider some basic element criteria of interior design specific for autistic children.
