

Abstract

So many ways you can do to show how love someone to hold the water, where one of them to know the history of ever. Because history is one of the nation's identity that must be preserved and maintained so that will be transmitted to our children in the future.

One of the greatest history owned by Indonesia is Majapahit. This Kingdom is famous for its wide owned by a very wide area covering the archipelago and part of Malacca region.

In the era of information technology and evolving so rapidly at this time, we rarely find mobile games is used as one of the medium used to convey information about the history of the nation.

The information is packaged as attractive as possible in the form of mobile games will lead to more interest from users to know and learn the history of the nation contained in the game. And also attractively packaged information will be faster and last longer acceptable. Therefore LagunaBlade choose a theme Final Project Indonesia in the Heart, where LagunaBlade want to participate in preserving the history of Indonesia through an Android-based games

Keyword:History, Majapahit, Mobile game
