

LIST OF TABLES

Table 1-1	Comparison of bandwidth efficiency in various orthogonal MFSK schemes	8
Table 2-1	Summary of the previous work for the data over GSM voice channel	30
Table 4-1	Single tone frequency transmitting in GSM Voice channel	52
Table 4-2	M-ary FSK performance for various M-ary and symbol rate at average RSSI value = 28	69
Table 4-3	RSSI value of the modem	72
Table 4-4	Performance of the proposed modulation scheme for 1000 bits sent at average RSSI value = 28	75
Table 4-5	BER performance with various constant value for 1000 bit sent with average RSSI value = 28	78
