

PREFACE

I would like to express my gratitude to Allah SWT, because of His grace I can finish this project entitled “DESIGN, IMPLEMENTATION, AND ANALYSIS OF ADAPTIVE M-ARY FREQUENCY SHIFT KEYING ON GSM VOICE CHANNEL”. This thesis is submitted as a partial fulfillment of requirements for the Degree of Master of Electro-Telecommunication in School of Electrical Engineering, Telkom University, Bandung.

I realize that without the help and the guidance of the various parties, it is difficult for me to complete this project. I would like to thank:

1. Dr. Ir. Sugihartono as my first advisor who give suggestions and guidances to finish this project.
2. Dr. Heroe Wijanto, as my second advisor who is always giving me knowledge and chances to complete this project.
3. All my research friends in Indonesian Institute of Sciences.
4. All my friends in Graduate School of Telkom University.

I hope this thesis would bring benefits to the reader and the science and technology in general.

Bandung, 2 September 2015
