

LIST OF FIGURE

Figure 2.1	Block of common communication system.....	11
Figure 2.2	Threshold for signal detection.....	14
Figure 2.3	Model N samples of the received OFDM signal	23
Figure 2.4	Examples of periodic auto-correlation function for the OFDM signal with Cyclic Prefix.....	24
Figure 3.1	Type of error on signal detection.....	31
Figure 3.2	Diagram Block of 16-QAM Modulator.....	33
Figure 3.3	Diagram of 16-QAM Constellation.....	34
Figure 3.4	Parallel Transmission scheme of OFDM.....	38
Figure 3.5	Power spectrum of OFDM signal with 32 subcarrier.....	40
Figure 3.6	Cyclic prefix insertion.....	41
Figure 3.7	Schematic of the process for estimating the standard error of statistic (x).....	44
Figure 4.1	Spectrum sensing common block	48
Figure 4.2	Common block of OFDM transmitter.....	49
Figure 4.3	AWGN channel model.....	52

Figure 4.4 GLRT Detector with Bootstrap approach Flowchart.....	59
Figure 5.1 Comparison effect of Cyclic Prefix length.....	63
Figure 5.2 Comparison effect of OFDM symbol numbe...	64
Figure 5.3 Comparison effect of bootstrap resample number	65
Figure 5.4 Zoom-in from comparison effect of bootstrap resample number between SNR -2 to -1 dB.....	66
Figure 5.5 Comparison of detector on certain noise.....	67
Figure 5.6 Comparison of detector on uncertainty noise -1 dB.....	69
Figure 5.7 Comparison of ROC detector based on second order.....	70
