

## DAFTAR ISTILAH

|            |  |
|------------|--|
| Duty Cycle | : Perbandingan antara pulsa ON dan OFF |
| Feedback   | : Umpan balik                          |
| BLDC       | : Brushless DC Motor                   |
| Input      | : Masukan                              |
| Output     | : Keluaran                             |
| PWM        | : Pulse Width Modulation               |

## DAFTAR SINGKATAN

|      |                                    |
|------|------------------------------------|
| PC   | = <i>Personal Computer</i>         |
| PV   | = <i>Present Value</i>             |
| PWM  | = <i>Pulse Width Modulation</i>    |
| SP   | = <i>Set Point</i>                 |
| DC   | = <i>Direct Current</i>            |
| IMU  | = <i>Inertial Measurement Unit</i> |
| BLDC | = <i>Brushless DC Motor</i>        |
| IC   | = <i>Integrated Circuit</i>        |
| LCD  | = <i>Liquid Crystal Display</i>    |
