

PREFACE

The authors praise to ALLAH SWT, because upon his grace and blessing so the author was able to finish the final project with the title "INFORMATION SYSTEM STRATEGIC PLANNING BASED ON TOGAF FRAMEWORK ADM IN 2ND REVENUE FUNCTIONS DPPK BANDUNG REGENCY". The final project is organized to meet one of the requirements for completing a program study of Information Systems, School of Industrial Engineering, Telkom University.

The author is aware that during the writing of the final project was a lot of assistance from the various parties. Therefore, the author would like to thank:

1. Mr. Sumiran and Mrs. Sukarsih, as author parents that always support and pray to author also motivated author.
2. Mr. Yuli Adam Prasetyo, S.T, M.T, as an advisor I that provide direction and guidance to the author associated with the final project.
3. Mr. Ridha Hanafi, S.T., M.T, as an advisor II who have shared study regarding enterprise architecture and provide solutions for the questions.
4. Mr. Husni, Mr. Dheni, Mr. Encep, Mrs. Dini, as source provides information in DPPK Bandung Regency.
5. Theresia Yudith Dwi Prisila Caloh and Almareta Harasti Nurani, as partner the final project who always give spirit to complete the final assignment on time.
6. All the parties can't author mentioned one by one.

This final project is not a perfect final project because it still has many flaws both in terms of biological systematics and the technique of writing them. Therefore, the author strongly hoped criticisms and suggestions of building for the sake of perfection of this report. Hopefully this final project report could provide the benefits for authors and readers.

Bandung, June 2016
