

ACKNOWLEDGEMENTS

I would not have been possible to write this master thesis without the help and support of my surrounding people. I would like to express my deepest gratitude to my principal supervisor, Ari Moesriami Barmawi, Ph.D for her help, patience, and guidance in supporting and supervising me throughout the research and thesis writing.

I'm deeply grateful to dr. Kristiantini Dewi, SP.A and dr. Purboyo Solek, Sp.A(K) from Indonesia Dyslexia Association for their help, support for sharing their knowledge about Dyslexia Identification and providing me data in my thesis. I also thank to all psychologists, therapists, and staff in Indigrow Child Development Center and Melinda Child Development Center for their help.

I would like to thank to all directors, lecturers, and academic and technical staffs of Telkom University, especially for Graduate School of Informatics Engineering who have provided all the necessary supports at the master program.

Above all, I would like to express my deepest appreciation to my parents, sisters, all of families and friends who always encourage me and prayed for me with the great patience especially during this study. I also would like to thank to all people who I could not mention their name one by one.

Best regard!
