

## PREFACE

Greetings in the love of Christ.

Praise be upon God, thankfully to Allah for the gracious and tremendous blessing that enable me to finish this master thesis entitled **“Wideband Parasitic Antennas Design and Realization to Improve Laptop Antenna Reception“** . This thesis was made for the requirement to get the degree of Master of Telecommunication Engineering.

Nothing is perfect, so do this thesis. Because of it, I will say thankyou if you want to correct this thesis and give some advices to make this thesis better via email : [rurapatras@yahoo.com](mailto:rurapatras@yahoo.com). All of the truth come from Allah and the false come from me.

I hope this thesis which was the result of my efforts during studied in campus Telkom University, can be one of the sources of knowledge and give the inspiration for new knowledge to emerge.

Greetings in the love of Christ.
