

## ACKNOWLEDGEMENT

*Bismi-llāhi rrahmāni rrahīmi.* In the name of Allah, the Most Gracious, the Most Merciful. Al- amdu lill h, all the praises be to Allah, for His blessing and making it possible to complete this thesis. I would like to express my sincere appreciation to my supervisor, Mr. Prof. Dr. Adiwijaya and Mr. M. Arif Bijaksana Ph.D, for their patience, discipline and encouragements in supporting and supervising me throughout the research and thesis writing. I am deeply grateful to Mr. Arief Fathul Huda, Mr. Kemas Muslim and Mr Abdurahman Baizal, for their valuable feedbacks during thesis progress monitoring sessions. I would also express my gratitude to Mr. Husni Thamrin for providing me reference data for my thesis. My special appreciation goes to Prof The Houw Liong and Mr. Arief Fathul Huda Ph.D. for introducing me to Data Mining. I am also thankful for the understanding and supports given by my senior managers, Mr. Bustanul Arifin, Mr. Wahyudi and Mr. Meyer Silaban. Many thanks go to Head of Graduate School of Informatics Engineering, Mr. Dana S. Kusumo, Ph. D., for giving the consultations and supports throughout my study. I also appreciate the supports from Mbak Ri Handayani, a very responsive administration staff. Thank you to all my fellow students for being very helpful friends and discussion partners and for sharing the moments and friendship at Telkom University.
