PREFACE

In the name of Allah, the Most Beneficent, Most Merciful.

One never writes a research by oneself. There are those countless individuals who over time have contributed to the completion of my mini thesis entitled, “**The Impact of Inflation Rates and US Dollar Exchange Rate on Indonesian Stock Market Index Return Volatility periods 2002-2012 using GARCH Methodology.**” Moreover, there are the people who had provided comments and input for this research in order to maintain the goodness of the research. Their comments proved invaluable, and needless to say, I am most grateful to them for their assistance. They include:

- Bapak Dr. Riko Hendrawan as my thesis supervisor who triggers my curiosity on the topic and gave suggestion, input, feedback and advice for my research. I was not used to do a considerably advance topic in investment, but he is the one who triggers my curiosity to keep learning.
- Ibu Nora Amelda Rizal, Ibu Irni Yunita and Bapak Muhammad Azhari as my mini thesis reviewer who gave an insight, critical thinking question and guidelines when I was doing my research.
- Gayuh Raditya Perdana, Tria Ridiantry, Muhammad Rizky Fedayeen and Dwipanca Adi Nugraha, my fellow finance mini thesis friends. They are the people who maintain the group spirit in doing the research. They are the people who support me in hassles. They are the people who I could share the knowledge to each other. I appreciate for the togetherness for the last one year. Credit is all due to Nuryudo Iman Varisqi as well who gave me a preliminary insight on my mini thesis.

- Member of (formerly) SEF IM TELKOM, the community who evolve into a family during my past three amazing college years. In SEF IM TELKOM I have been developing my critical thinking skill until the current level that I have possessed right now. In SEF IM TELKOM I have my only achievements. In particular, Archie Fazira Rachmady, Kania Novita Wulandari, Suci Kurnia Sari, Dika Rian Perdani, Yuda Putra Pratama and Eureka Cindy Pratiwi.
- Ibu Rinarti, my high school economic teacher, who cultivates and develops my interest in economic subject. Without her guidance and teaching, I would not exhibit such an interest to economic related subject in the university.
- Program Assistant of International Class, Mr. Irwan, (former) Mr. Cahyadi Permana and Mrs. Widji. Without the help of these people, my paper work for my thesis would not be processed on time. Not to mention they provide suggestion and advice too for my thesis.
- MBTI International Class of 2010. Without the help of the class, I would not get any member of the group for my every single assignment in 7 semesters. I thanked them for their contribution that they have given to me during my university life.

This work, then, is the collective product of the efforts of a great many people. The last but not least, I would like to thank to my parents. My parents give me the recipe how to learn in life and provide the finest quality of education that they would insists to afford. I would like to thank them for the provision that they have been giving to me for the past twenty years. This work is one of the actualization and proof that their recipe to me, the fond, provision and many teachings are actually working and generate a good man.
