

TABLES OF CONTENTS

Table 3.1	Dimension of the transmission line from calculating.....	25
Table 3.2	Reduction in the length of the transmission line A.....	27
Table 3.3	Reduction in the length of the transmission line B.....	27
Table 3.4	Reduction in the length of the transmission line C.....	28
Table 3.5	Extra in width of the transmission line A.....	28
Table 3.6	Extra in width of the transmission line B.....	29
Table 3.7	Extra in width of the transmission line C	29
Table 3.8(a)	Reduction in the length of the transmission line A (AP-1)...	30
Table 3.8(b)	Reduction in the length of the transmission line A (AP-2)...	30
Table 3.9(a)	Reduction in the length of the transmission line B (BP-1)....	31
Table 3.9(b)	Reduction in the length of the transmission line B (BP-2)...	31
Table 3.10(a)	Reduction in the length of the transmission line C (CP-1)...	31
Table 3.10(b)	Reduction in the length of the transmission line C (CP-2)....	32
Table 3.11(a)	Extra in the width of the transmission line A (AL-1)	32
Table 3.11(b)	Extra in the width of the transmission line A (AL-2)	33
Table 3.12(a)	Extra in the width of the transmission line B (BL-1)	33
Table 3.12(b)	Extra in the width of the transmission line B (BL-2)	33
Table 3.13(a)	Extra the width of the transmission line B (CL-1)	34
Table 3.13(b)	Extra the width of the transmission line C (CL-2)	34
Table 4.1	Simulation result of the reduction in length of the transmission line A (AP).....	36
Table 4.2	Simulation result of the reduction in the length of the transmission line B (BP).....	38
Table 4.3	Simulation result of the reduction in the length of the transmission line C (CP).....	40
Table 4.4	Simulation result extra in width of the transmission line A (AL).....	42
Table 4.5	Simulation result extra in width of the transmission line B (BL).....	44
Table 4.6	Simulation result extra in width of the transmission line C (CL).....	45
Table 4.7(a)	Simulation result of the reduction in length of the transmission line A (AP-1).....	47
Table 4.7(b)	Simulation result of the reduction in the length of the transmission line AP-2.....	48
Table 4.8(a)	Simulation result of the reduction in length of the transmission line AP-1 and BP-1	50
Table 4.8(b)	Simulation result of reduction in the length of the transmission line AP-2 and BP-2.....	51
Table 4.9(a)	Simulation result of the reduction in length of the transmission line AP-1,BP-1 and CP-1.....	52
Table 4.9(b)	Simulation result of the reduction in length of the transmission line AP-2, BP-2 and CP-2.....	53

Table 4.10(a)	Simulation result reducing of the length of the transmission line AP-1, BP-1 and CP-1, and increasing of the width AL-1	55
Table 4.10(b)	Simulation result reducing of the length of the transmission line AP-2, BP-2 and CP-2, and increasing of the width AL-2	56
Table 4.11(a)	Simulation result reducing of the length of the transmission line AP-1, BP-1 and CP-1, and increasing of the width AL-1 and BL-1.....	57
Table 4.11(b)	Simulation result reducing of the length of the transmission line AP-2, BP-2 and CP-2, and increasing of the width AL-2 and BL-2.....	58
Table 4.12(a)	Simulation result reducing of the length of the transmission line AP-1, BP-1 and CP-1, and increasing of the width AL-1 BL-1 and CL-1.....	59
Table 4.12(b)	Simulation result reducing of the length of the transmission line AP-2, BP-2 and CP-2, and increasing of the width AL-2 , BL-2 and CL-2.....	61
Table 4.13	Simulation result S parameter of Branch line coupler after optimization.....	62
Tables 4.14	Comparison measurement and simulation results.....	63
