

PREFACE

I would like to express my gratitude to Allah SWT, because of His grace I can finish this thesis entitled “Improvement Branch Line Coupler Isolation in S Band Frequency”. This thesis is submitted as a partial fulfillment of requirements for the Degree of Master of Electro-Telecommunication in School of Electrical Engineering, Telkom University, Bandung.

I realize that without the help and the guidance of the various parties, it is difficult for me to complete master’s program. Thus, I would like to thank :

1. DR. Bambang Setia Nugroho, as my 1st advisor who have provided his time and energy to steer me in the preparation of this thesis.
2. Dr.Yuyu Wahyu , MT as my 2nd advisor who always giving me chances, time, and guidance to complete this thesis.
3. Both my beloved my wife Tuti Herawati who always giving me inspiration, support, and motivation.
4. All my friends in Graduate School of Telkom University.

Moreover I wish nothing but the best hope for them, and I hope this thesis would bring benefits to the development of science.

Bandung, 14th of September 2016
