

ABSTRACT

Tresna werdha social house is one form of social facilities that are built as a place of care and storage of the elderly. Nearly 60% of the elderly's activity is used in the dormitories to eat, reading, sleeping and even eating. Many activities are conducted in one room because the division of space that is not appropriate and does not support the elderly activities while doing work and socializing. Data collection with some learning resources with the residents of the orphanage, field survey to the literature book and internet about the needs of the elderly at the Tresna Werdha Social House. This design is very easy to be interior interiors Tresna Werdha Social House with facilities that can meet the physical and psychological needs of the elderly so that the elderly is not only shelter, but facilities that support the independence of the elderly in order to realize the quality of life of the elderly better.

Keywords: social house tresna werdha, elderly.
