

## DAFTAR ISI

|                                                                  |           |
|------------------------------------------------------------------|-----------|
| LEMBAR PENGESAHAN .....                                          | ii        |
| LEMBAR PERNYATAAN ORISINALITAS .....                             | iii       |
| ABSTRAK .....                                                    | iv        |
| ABSTRACT .....                                                   | v         |
| KATA PENGANTAR.....                                              | vi        |
| DAFTAR ISI.....                                                  | vii       |
| DAFTAR GAMBAR.....                                               | ix        |
| DAFTAR TABEL .....                                               | xi        |
| DAFTAR LAMPIRAN .....                                            | xii       |
| DAFTAR SINGKATAN DAN LAMBANG .....                               | xiii      |
| DAFTAR ISTILAH .....                                             | xiv       |
| <b>Bab I Pendahuluan.....</b>                                    | <b>1</b>  |
| I.1 Latar Belakang .....                                         | 1         |
| I.2 Perumusan Masalah.....                                       | 4         |
| I.3 Tujuan Penelitian.....                                       | 4         |
| I.4 Batasan Penelitian .....                                     | 4         |
| I.5 Manfaat Penelitian.....                                      | 5         |
| I.6 Sistematika Penulisan.....                                   | 5         |
| <b>Bab II Landasan Teori .....</b>                               | <b>7</b>  |
| II.2 Teknologi <i>Additive Manufacturing</i> .....               | 7         |
| II.2.1 <i>Fused Deposition Modelling (FDM)</i> .....             | 9         |
| II.2.2 <i>Layered Manufacturing</i> .....                        | 12        |
| II.2.3 <i>STL (Stereolithography)</i> .....                      | 13        |
| II.2.4 <i>Thermoplastic Materials</i> .....                      | 13        |
| II.2.5 <i>3D Printer Machine</i> .....                           | 13        |
| II.2.6 <i>Build Plate</i> .....                                  | 14        |
| II.2.7 Klasifikasi Jenis Material.....                           | 15        |
| II.2.8 Material <i>High Impact Polystyrene (HIPS)</i> .....      | 16        |
| II.2.9 <i>Sinkmark</i> (Penyusutan Struktur Bentuk Produk) ..... | 16        |
| <b>Bab III Metode Penelitian .....</b>                           | <b>17</b> |

|                                                                            |           |
|----------------------------------------------------------------------------|-----------|
| III.1 Model Konseptual.....                                                | 17        |
| III.2 Sistematika Pemecahan Masalah.....                                   | 19        |
| III.2.1 Tahap Penelitian Awal.....                                         | 21        |
| III.2.2 Pengumpulan Data.....                                              | 23        |
| III.2.3 Pengolahan Data .....                                              | 23        |
| III.2.4 Analisis dan Kesimpulan .....                                      | 26        |
| <b>Bab IV Pengumpulan Dan Pengolahan Data .....</b>                        | <b>27</b> |
| IV.1 Pengumpulan Data .....                                                | 27        |
| IV.1.1 Data Spesifikasi Objek Penelitian .....                             | 27        |
| IV.2 Pengolahan Data.....                                                  | 29        |
| IV.2.1 Desain 3D CAD .....                                                 | 31        |
| IV.2.2 Konversi CAD file Dalam Format .STL .....                           | 31        |
| IV.2.3 Transfer file .STL ke Program Mesin 3D Printer .....                | 32        |
| IV.2.4 Setup Mesin 3D Printer.....                                         | 34        |
| IV.2.5 Running Process Mesin 3D Printer .....                              | 34        |
| IV.2.6 Removal Produk Fisik Pada Platform Pembangun.....                   | 35        |
| IV.2.7 Post-Processing Support Produk.....                                 | 36        |
| IV.2.8 Finishing Product.....                                              | 36        |
| <b>Bab V Analisis .....</b>                                                | <b>38</b> |
| V.1 Analisis Produk berdasarkan aspek <i>fit design</i> dan proses AM..... | 38        |
| <b>Bab VI Kesimpulan dan Saran .....</b>                                   | <b>42</b> |
| VI. 1 Kesimpulan.....                                                      | 42        |
| VI.2 Saran.....                                                            | 42        |
| <b>DAFTAR PUSTAKA .....</b>                                                | <b>43</b> |
