

## DAFTAR SINGKATAN

|      |                                             |
|------|---------------------------------------------|
| EIRP | : <i>Effective Isotropic Radiated Power</i> |
| Kbps | : Kilo bit per second                       |
| LTE  | : <i>Long Term Evolution</i>                |
| MAPL | : <i>Maximum Allowable Path Loss</i>        |
| Mbps | : Mega bit per second                       |
| MIMO | : <i>Multiple Input Multiple Output</i>     |
| Mhz  | : Mega Hertz                                |
| PCI  | : <i>Physical Cell Identity</i>             |
| RSL  | : <i>Received Signal Level</i>              |
| SIR  | : <i>Signal Interference Ratio</i>          |
| SINR | : <i>Signal Interference Noise Ratio</i>    |
| RF   | : <i>Radio Frekuensi</i>                    |
| RSL  | : <i>Radio Signal Level</i>                 |
| RSRP | : <i>Reference Signal Receive Power</i>     |
| RSSI | : <i>Rceive Signal Strength Indicator</i>   |
