2017. Biak Numfor one district in Papua province, Indonesia. Biak Numfor quality educational facilities that are still considered unfavorable resulted in many residents and citizens of Biak continue his studies out of the island after graduating from high school or vocational, but for now the college with the degree of academic, colleges and institutes have started growing rapidly. Only the development of higher education in Biak have not been accompanied by a good infrastructure so as to make universities in Biak are less effective for students who will continue their education. One of the colleges in the district Biak namely the Institute of Social and Political Sciences has even been accredited ban-PT and became one of the campus was good in Biak only institute of social and political science is not equipped with facilities and good infrastructure, making processing space cluttered and do not meet the work activities of stafffaculty and students to be effective and efficient. Therefore, the redesign of the college IISIP Biak was deemed necessary in order to improve the quality of educational facilities to be better and more effective so that it can meet the needs according to its function.
