

ACKNOWLEDGMENTS

Praise be to Allah Subhanahu Wa Ta'ala because of His beneficence and guidance the author can complete this thesis entitled "Learning basic algorithm using gamification for novice programmer" proposed as one of the requirements to obtaining Master degree in the school of computing Telkom university.

During the research process, several parties have given their guidance, support, and suggestion, and motivation. Therefore, I would like to thank:

1. Mr. Dana Sulistiyo Kusumo, Ph.D, my supervisor for the continuous support of my study and research, for his patience, motivation, enthusiasm, and immense knowledge. His guidance helped me in all the time of research and writing of this thesis. I could not have imagined having a better advisor and mentor for my study.
2. Mrs. Dade Nurjanah, Ph.D, my supervisor who always give his continuous guidance and immense knowledge.
3. Jurusan Teknik Komputer Politeknik Negeri Bandung, for all the discussions and for all the support.
4. Coworkers at Garuda Infinity Kreasindo, to provide time and place opportunities to complete this thesis. To Harun, and Dedi 'Ikan' and Radit, for all support that has been given from them.
5. My fellow of S2 Informatics Telkom University, for all the discussions and for all the fun we have had in the last three years.
6. My parent, Siti Mariam and Radjulaini for providing me with unfailing support and continuous encouragement throughout my years of study and through the process of researching and writing this thesis.
7. And finally, I wish to thank my loving and supportive wife, Wina Santiyah, and my two wonderful daughter, Nadya and Nayla, who provide unending inspiration. This accomplishment would not have been possible without them. Thank you.
