First of all. let's pray and thank to our God, Allah swt, the lord of the universe who has been giving us mercies and blessings. Secondly, may sholawat and salam always be with our best prophet Muhammad saw, who has guided us from the darkness to the light. The completion of this final project could not have been possible without all support and assistance of many people whose names may not all be mentioned. I would like to express them deep appreciation particularly to the following:

1. My parents, my one and only little brother, and all my family for all the support and love. I love you all to the moon and back.
2. Mr. Kiki Maulana Adhinugraha, Ph.D., Prof. David Taniar, and Mr. Sultan Mofareh Alamri, Ph.D. as my supervisors that have been patiently supervise me with all the bright solution.
3. Artificial Intelligence Laboratory, Fisika Dasar Laboratory, and Database Laboratory family who always there right beside me when I was up and down.
4. IF-38-04 a.k.a Pirates family, especially the girls, who share the greatest moment together even when we know we were really not in good condition.
5. All my friends that always support me and become the reason of me to smile and laugh. It's been a pleasure to have you all in my life.

I hope I could reply all of your kindness but no, I cannot. Let Allah do the rest and give the best as His plans for you, and for all of us.
