

## Preface

All praise to God for over abundance of the graces so this minor thesis entitled "Highest Order Voronoi Processing on Apache Spark" can be completed. This minor thesis is made as one of requirements to obtain a Bachelor Degree of Informatics Engineering in Telkom University. It is undeniable that this minor thesis is certainly far from perfect. However, the author strive to provide the best in this minor thesis.

Hopefully this minor thesis will be useful to the readers. Critics and suggestions from readers of this book will be gladly accepted to make this research can be developed even better in the future.
