

Acknowledgment

First of all, thanks to ALLAH S.W.T for his mercy and guidance in giving me full strength to complete this Final Project “Indexing Voronoi Cell using R*-Tree Method”. Even facing with some difficulties in completing this task, I still managed to complete it. This Final Project is accepted and validated to partial fulfillment of the requirements for Undergraduate Program on Department of Informatics Engineering School of Computing Telkom University.

The author realize this Final Project certainly not perfect, because the author is a person who is not perfect. However, the author is always trying to give the best on this final task project. Hopefully this Final Project provides benefit to anyone who read or participate in researching what is in this Final Project.

Finally, the author apologize for magnitude to all parties if there is a mistake that the author did during the process of making this final task. Criticism and suggestions will be gladly accepted to correct errors and deficiencies.
