

## ACKNOWLEDGEMENT

Author want to thank to Allah SWT for bless, strength, good health to finish undergraduate thesis titled “Designing Business Model of IndiCar by Using Business Model Canvas”. His blessing guides author in working this undergraduate thesis proposed as requirement of acquiring a bachelor degree in International ICT Business Management Study Program of Telkom University.

The author would like to express gratitude to all parties that have helped, supported, and assisted with kindness and patience during this research, and would like to thank to:

1. Mr. Fajar Sidiq Adi Prabowo, S.E., MBA, as my supervisor of this undergraduate thesis, for the encouragement and guidance.
2. My family especially my grandparents and my parents, Prof. H. E. T. Ruseffendi, S.Pd., M.Sc., Ph.D., Anceu Kustiana, Richard T. Diets, S.H., and Lucie T. Diets S.H., and also my aunty Ir. Ratih Ruffianti MM. and uncle Nur Iman Sakti Parapat, S. E., for all the prayers, endless support and love during all the time.
3. My sister, Jaimee T. Diets for the support, hugs, and love.
4. Mr. Dr. Brady Rikumahu, S.E., MBA, my academic supervisor.
5. Mr. Aji Widodo, a manager of Ecosystem Mobile Experience at Telkom DDS that guided me from my internship until this undergraduate thesis is done.
6. Rizky Aulia Pratama, and Isradila, thank you for all your support, and also the people who I cannot mention one by one.

Author realize that this undergraduate thesis is still far from perfection. Criticism and suggestions are expected for an improvement for the future research.

Bandung, December 2017
