

ABSTRACT

Death is a duality of the life that human beings have to deal with. Death will always be a lifelong study that has continued to be searched for its truth, whether it is the end of its journey or its end of the end. On the way to death, the person must face an incident of time in order to repair the work (good deeds) both to the Creator (Khalik) or human beings.

Keyword : *Death, Charity, Human, Time.*
