

ABSTRACT

Today, culinary is one of the activities or fields that are in great demand by various ages ranging from young people to the old ages with a variety of interests in culinary. Current culinary activities are not just eating and drinking but other very interesting activities, such as cooking, seminars, cooking demonstrations and other activities. These activities are carried out not only in big cities, but also small cities that have a variety of culinary by different ways of serving or making, one city that attracts a lot of attention in the culinary field, Bandung City. Bandung city is one of the favorite culinary tourism destinations in Indonesia, which has a variety of culinary and interesting places, therefore it takes a facility that can accommodate a variety of culinary activities, namely the culinary center.

The culinary center is a place that can accommodate current culinary activities. Because of the large number of people who are interested in this field, the interior design of the culinary center will attract the public attention , especially young people who love to go to the culinary places with a good food and attractive designs. To get an interesting design impression, theres come the design of this theme is called "foodies playground" because playground is a fun place to play but it also can educate too, which likens this culinary center, however foodies lead to some users who like and are interested in food and foodies is a nickname for people -that person.

Meanwhile, the applied concept which is "current trending", taken from the habits of foodies who like to take pictures, enjoy snacks while playing and are interested in cooking or serving their own dishes.
