

ACKNOWLEDGEMENT

Assalamu'allaikum Warahmatullah Wabarakatuh

In the name of Allah, most gracious and most merciful. Thanks to His grace and His help the author can complete and finish the Final Project with the title **“DESIGN OF NEW BUSINESS MODEL FOR REBEL 504 IN SURAKARTA CITY BY USING BUSINESS MODEL CANVASS APPROACH”**. This final report is used to fulfill one of the requirements of the graduation in Telkom University. Also, this task is used to assist the owner in solving the company's problem.

On this special occasion, the author would like to say his greatest thanks to:

1. Mr. Dr. Ir. Agus Achmad Suhendra, M.T. as Dean in Faculty of Industrial Engineering and System Engineering and Mr. Ari Yanuar, S.T., M.T. that are always support all students in Industrial Engineering.
2. Mr. Ir. Budi Praptono, M.M. as the first advisor who always provided his knowledge to help the author improve and finish the final project, and always motivate the author to finish the project.
3. Mr. Boby Hera Sagita, S.E., M.M. as an advisor who has provided many directives and inputs to me in carrying out this final report and also the completion of this final report.
4. Mr. Rino Andias Anugraha, S.T., M.M. as the guardian of TI-38-INT lecturer who always provide motivation, direction, and spirit for his students especially in TI-38-INT class.
5. My parents, two brothers, and my family that are always support me in every condition and situation.
6. REBEL 504 that became the object of this research and as a family that has helped a lot directly or indirectly from the beginning until the completion of this research.

7. All friends in Surakarta City as my hometown that I can't mention one by one. Who always pray for me, motivate me and encourage me whenever and where I am.
8. Friends from TI-38-INT, especially Celupers who are always together from the first year to the fourth year, shared their tears and laugh for 4 years, I love you guys, I really do.
9. Friends in Entrepreneurship and Socio Community, HIPMI PT. Telkom University, Short-term Exchange in University of Malaya, AIESEC In Bandung and AIESEC In Kharkov that became a place for me to gather more knowledge and new experience.
10. In general, all friends in Telkom University and other parties that already support me and motivate me who can't be mentioned one by one.

Finally, the author realized there are still a lot of mistake due to the limited ability and knowledge that the author has, and because of that this final project are far from perfect. Therefore, the author expects all input from all parties to improve this final project in the future. Hopefully this final project will be useful in the future.
