| BAB I PENDAHULUAN.....  | 1                                   |
| 1.1 Latar Belakang Masalah.....                                     | 1                                   |
| 1.2 Tujuan dan Manfaat .....  | 2                                   |
| 1.3 Rumusan Masalah .....   | 2                                   |
| 1.4 Batasan Masalah.....  | 2                                   |
| 1.5 Metode Penelitian.....  | 3                                   |
| 1.6 Sistematika Penulisan.....                                      | 3                                   |
| BAB II TINJAUAN PUSTAKA .....                                       | 5                                   |
| 2.1 Penelitian Terkait .....  | 5                                   |
| 2.2 <i>Long Term Evolution</i> (LTE) / 4G.....                      | 5                                   |
| 2.2.1 Konfigurasi Jaringan LTE.....                                 | 6                                   |
| 2.2.2 Teknologi Transmisi LTE.....                                  | 7                                   |
| 2.2.3 <i>Orthogonal Frequency Division Multiplexing</i> (OFDM)..... | 8                                   |
| 2.2.4 Prinsip Kerja OFDM.....                                       | 10                                  |
| 2.2.5 Skema Modulasi Pada LTE.....                                  | 11                                  |
| 2.2.6 FFT/IFFT .....  | 12                                  |
| 2.2.7 <i>Cyclic Prefix</i> .....                                    | 12                                  |
| 2.3 GNU Radio.....  | 13                                  |
| 2.4 USRP.....   | 13                                  |
| BAB III PERANCANGAN SISTEM.....                                     | 15                                  |
| 3.1 Skenario Perancangan Sistem .....                               | 15                                  |

|                                 |  |    |
|---------------------------------|--|----|
| 3.1.1                           | Perancangan Sistem .....                   | 15 |
| 3.1.2                           | <i>Flowchart</i> Perancangan Sistem.....   | 16 |
| 3.2                             | Desain Perangkat Keras .....               | 17 |
| 3.2.1                           | Spesifikasi Komponen Perangkat Keras ..... | 17 |
| 3.2.2                           | USRP N210.....                             | 17 |
| 3.3                             | Desain Perangkat Lunak.....                | 18 |
| 3.3.1                           | Blok Diagram OFDM pada GNU Radio .....     | 19 |
| 3.3.2                           | AWGN Channel.....                          | 20 |
| 3.3.3                           | <i>Signal to Ratio</i> (SNR) .....         | 20 |
| BAB IV HASIL DAN ANALISIS ..... |  | 22 |
| 4.1                             | Hasil Percobaan.....                       | 22 |
| 4.2                             | Analisis.....                              | 24 |
| BAB V PENUTUP .....             |  | 25 |
| 5.1                             | Kesimpulan.....                            | 25 |
| 5.2                             | Saran.....                                 | 25 |
