

## ABSTRACT

*Bandung City is one of the largest cities in Indonesia with rapid economic development in recent years. Since its establishment in 1810, most of the city of Bandung began to be built and developed as a tourist and trade area (business).*

*Bandung City has Central Business Districts in the area, Jalan ABC, Braga, and Banceuy. The ABC, Braga, and Banceuy Roads are active trading zones established by the Bandung city government in 1988 as the Central Business District (CBD), or trade center. The city of Bandung is not only visited by tourists or tourists, but also other people who come to work and do business. This tourism and business sector has become the concentration of development by the Bandung city government at this time.*

*Therefore it needs a means of staying for business people and tourists, one of which is the hotel. Hotels that are in the city that is the City Hotel category. City Hotel is a hotel located in the middle of a big city or urban area. City hotels are usually referred to as transit hotels because guests who stay are usually for a short (temporary) period of time.*

*This Interior Design prioritizes space users as a means of tourism and business. being in the business district and cultural heritage area adds to the attraction of visitors both for business and leisure. Maintaining the characteristics of the surrounding area as a means of preserving the building to maintain its authenticity. not forgetting the function of the hotel as a means of recreation and business.*

*The design of this 4-star hotel is expected to improve the tourism sector, the community's economy and introduce to visitors how the application of a modern hotel design, but still has elements of Dutch historical heritage, which will be applied to this hotel in Suniaraja. Because with the formation of a good image of the identity of the city center that is applied to the hotel, it will leave an unforgettable impression of the hotel and preserve it.*
