

ABSTRACT

Recently, Gasibu Field visitors start to come from different hobby and activities, for the example are, people whose do photography, even people who just wants to chill. But for now the facilities are lacking, the example of this are less place to seat, and a place to save their belongings. For this reason we are trying to design a locker to help them keep their belonging in the safe place. With these facilities the amount of visitors who comes to visit expand, and growing.
