The office is an important part of the sustainability of a company where employees work, doing their job activities so that there must be adequate facility facilities for the continuity of a job. Creating an Idel and efficient office space in accordance with the needs of work to make employees comfortable, healthy, productive is the thing that is needed in the design of the current office. OJK Yogyakarta is doing construction of the office building and its visiting facilities and will move the employees along with all its operational activities to the new office building. Where the development of this new build agreed to be able to perform its functions, duties and authorities effectively as well as the development of the OJK organization, it is necessary adequate facilities and infrastructures, such as office buildings and their support facilities. To be able to provide the right and optimum office building, accurate interior planning is required that is tailored to the operational activities and needs of the OJK organization. The interior design of the OJK office should be able to present the image of OJK so that it can convey the vision of the Mission and the purpose of OJK indirectly to the community. In accordance with the purpose of the construction of this new building, the design of the OJK office must be able to fulfill the needs of the oprational activities and needs of the OJK organization in order to make employee productivity and community services more optimal.

Keywords: Office, Financial Services Authority, Image, work needs.
