

PREFACE

All praise and gratitude to Allah SWT for giving all His assistance and grace, and with His guidance the author can also complete this thesis book entitled "Implementation of Compressive Sensing with CVX Reconstruction Technique for Spectrum Sensing in Cognitive Radio". This thesis is structured to meet the requirements of completing a Masters Degree in the Telecommunications Engineering master's program at Telkom University.

In writing this thesis book the author realizes that there are still many shortcomings due to limited knowledge. The author is very open to all constructive criticism and suggestions from all parties to improve this thesis. In closing, the author would like to apologize for errors in writing this thesis. Hopefully this thesis book can be useful for writers and readers.
