The Hajj dormitory used as a temporary accommodation or rest area for hajj pilgrims before heading to the holy land of Mecca, Saudi Arabia. Hajj dormitories are also used as a training venue for how the hajj activity sequence takes place or commonly referred to as Hajj Manasik training. In designing, the spatial layout in the Hajj dormitory certainly has to pay attention to the factors of the actors in it so that it can provide the best service and according to spiritual and external needs. The facilities provided also need to pay attention to pilgrims who have special needs in order to provide convenience in carrying out activities in the Hajj dormitory.

Redesign concept of the hajj dormitory is interior with an Islamic character, aiming to create an Islamic and religious atmosphere so can provide peace and support the needs of prospective Hajj pilgrims who are in the city of Penajam, East Kalimantan before leaving for the holy land. Mecca.

Keywords: Hajj Dormitory, Hajj, Islamic Interior, Disability Facilities, Penajam.
