

ABSTRACT

Tea is one of the plants that are often found in our daily lives with various preparations and benefits. Tea is now widely varied with various food ingredients, for industrial uses such as clothing dyes, natural preservatives, herbs, to the cosmetics industry. Utilization of tea began to develop into places of Spa or other relaxation and health places that began using tea as their distinctive feature, in addition to treating skin health for beauty, antioxidants in tea will also help maintain a healthy body and provide a relaxing effect. Based on data from the Plantation Office of West Java Province, Sukabumi is the third largest producer of tea plants in West Java with conditions of fertile and cold geographical regions followed by tourism growth and a rapidly growing population. The atmosphere of tea plantations in Sukabumi that is calm, cool, and beautiful scenery is perfect for relaxing physical and mind while traveling with family.
