

ABSTRACT

A country will not be separated in cooperation with other countries in strengthening relations between countries, such cooperation especially in terms of politics, economics and culture. Cooperation with other countries even this is realized with the form of Diplomatic relations. Diplomatic relations between Indonesia and Germany are intertwined in several aspects, including political cooperation, economic cooperation, educational cooperation, and socio-cultural cooperation. The collaborative relationship in the field of education was also supported by the large number of Indonesian students who continued their studies in Germany. The high level of Indonesian students who continued their studies in Germany made the level of interest of Indonesian people to become more familiar with German language and culture. However, only a few institutions facilitate complete information about Germany and often Indonesian people do not get complete and clear knowledge about life and education in Germany. And for that we need a place that can facilitate Indonesian people to learn German, German culture, and collect other information about Germany. interior design of the German Cultural Center in Bandung needs to be done to provide facilities that can accommodate all activities or programs in the cultural center with optimal facilities in accordance with the goals and vision of the cultural center mission by expanding the land by processing better interior elements and representing cira the German state and the Goethe Institut itself

Key word: Cultural Center, Culture, German, Indonesia
