

## ABSTRACT

---

*Many EO people today like a certain event. This Event Center Application helps event organizers who want to spread their event information more easily and validly. Making this application is intended for Event Organizer as a committee that holds events and wants to disseminate event information. The purpose of this application is to facilitate the Event Organizer in providing and disseminating information about their events. This application is carried out by groups who each have their module, for the tools used by the author, namely the PHP language, Framework CodeIgniter, XAMPP, and Sublime Text.*

*Kata Kunci: Event, Event Organizer.*
