

FOREWORD

We express our gratitude and extend our thanks to the presence of Allah SWT, who has bestowed His grace and guidance upon us, enabling us to successfully complete the capstone design on “Baby Monitoring and Control System.”

We would also like to acknowledge and appreciate all the individuals and organizations who have contributed to the development of this capstone design. Their support has been invaluable in ensuring the quality and effectiveness of our work.

As the compilers of this capstone design, we are aware that there may be shortcomings in both the preparation and the delivery of the content. We humbly welcome suggestions and constructive criticism from our readers, as these inputs will help us improve and enhance the capstone design.

Our ultimate aspiration is that this capstone design that we have compiled will bring forth benefits and inspirations to our readers. We hope that it serves as a valuable resource and contributes to the advancement of knowledge in the field of baby monitoring and control system.
