

## LIST OF FIGURES

|                                                                                                                   |    |
|-------------------------------------------------------------------------------------------------------------------|----|
| Figure I. 1 Share of households with improved drinking water in Indonesia from 2012 to 2021.....                  | 2  |
| Figure I. 2 Share of rural households with access to improved drinking water in Indonesia from 2012 to 2021 ..... | 3  |
| Figure I. 3 Steps for Jug Cleaning in PT. Tirta Investama (AQUA) Subang .....                                     | 4  |
| Figure I. 4 Fishbone for Jug Cleaning.....                                                                        | 5  |
| Figure I. 5 Criteria for Pre-Treatment Empty Jug.....                                                             | 6  |
| Figure I. 6 Operator cleaning on the machine (before).....                                                        | 7  |
| Figure I. 7 Operator's environment (Before).....                                                                  | 7  |
| Figure I. 8 Pre-Treatment's environment (Before).....                                                             | 7  |
| Figure I. 9 New machine for Pre-Treatment .....                                                                   | 8  |
| Figure I. 10 Operators trying the new machine.....                                                                | 9  |
| Figure I. 11 Operators cleaning on the jug.....                                                                   | 13 |
| Figure I. 12 Hierarchical Task Analysis .....                                                                     | 14 |
| Figure II. 1 NASA-TLX Meters .....                                                                                | 31 |
| Figure III. 1 Problem Solving Systematics .....                                                                   | 37 |
| Figure IV. 1 Existing Product .....                                                                               | 52 |
| Figure IV. 2 Black Box of the Jug Cleaning Machine.....                                                           | 62 |
| Figure IV. 3 Jug Cleaning Machine Part Decomposition .....                                                        | 62 |
| Figure IV. 4 Concept A Sketch.....                                                                                | 66 |
| Figure IV. 5 Concept B Sketch .....                                                                               | 67 |
| Figure IV. 6 Concept C Sketch .....                                                                               | 68 |
| Figure IV. 7 Concept D Sketch.....                                                                                | 69 |
| Figure IV. 8 Customer Importance Graphics.....                                                                    | 72 |
| Figure IV. 9 Final Design (Right).....                                                                            | 76 |
| Figure IV. 10 Final Design (Left) .....                                                                           | 76 |
