

ABSTRACT

Telkom University is the best private university in Indonesia according to Webometrics which applies modern educational principles to all aspects of its teaching and learning activities. This modern education system has been implemented throughout the Telkom University campus, one of which is the Faculty of Creative Industries. The world of modern education requires various facilities that can support the needs of all users, whether students, teaching staff or other academic staff. The design of campus facilities in the form of studio classrooms for learning activities, the CGI Lab as a practical lab, a prayer room as a place of worship and a nursery room that meets standards is very important to reflect that Telkom University is a modern campus that is in accordance with the branding of its motto, namely Creating The Future.

Keywords: *Studio Classroom, CGI Lab, Nursery Room, Campus Facility, Modern*
