

LIST OF TABLES

1.1	Research timeline.	5
2.1	Attack in InSDN dataset.	8
2.2	the SDN controller's extracted traffic features.	9
2.3	The features subset of SDN.	10
2.4	Features and labels of InSDN dataset.	11
2.5	Tabular Data to Colour	14
2.6	Random Forest Method	17
3.1	Table parameters.	20
3.2	Table scenario.	20
3.3	InSDN Up-sample class	23
3.4	Extracted 49 feature.	25
3.5	Data conversion to red-blue images.	26
3.6	Data conversion to grayscale images.	28
3.7	Parameters for CNN learning process.	29
4.1	CNN classification with grayscale images with 81 features.	35
4.2	CNN classification with red and blue images with 81 features.	36
4.3	CNN classification with grayscale images with 49 features.	38
4.4	CNN classification with red and blue images with 49 features.	39
