

LIST OF TABLES

Table 1. 1. Asset Data in the Case Study of Solar Power Plant Equipment	10
Table 2. 1. Power Plant Maintenance 17	
Table 2. 2. Case Study Maintenance And Production Scenarios.....	18
Table 2. 3. State of the Art Research on Solar Power Plant Production	23
Table 2. 4. Life Cycle Cost Research On Power Plants.....	24
Table 3. 1 Parameter Production and Life cycle cost maintenance35	
Table 4. 1. Specifications of Photovoltaic Modules And Inverter Input. 38	
Table 4. 2. Total DC Input Power of The Inverter Based On STC.....	39
Table 4. 3. Inverter Capacity Specifications	39
Table 4. 4. Simulation Parameters For Solar Power Plant Scenario 1.....	40
Table 4. 5. Annual Production Potential of SAM Software PV Systems.	41
Table 4. 6. Projection of Solar Power Plant Production Scenario 1.....	42
Table 4. 7. Scenario 1 Total Projection of Solar Power Plant Production Over 20 Years.42	
Table 4. 8. Calculation of The Potential Annual Production Loss of Three String Inverters	45
Table 4. 9. Actual Production of Solar Power Plants For All Inverters In Normal Operation From 2016 To 2018	46
Table 4. 10. Potential Inverter Conditions in Years 9, 10, and 11	46
Table 4. 11. Projection Inverter Production in Years 9, 10, and 11 Failure of 3 Inverters Per Year	46
Table 4. 12. Table Of Solar Power Production Projections (MS Excel).....	47
Table 4. 13. Formula For Calculating The Error Factor In The Projection of Solar Power Plant Production.....	48
Table 4. 14. % Error Forecast of Production Data.....	48
Table 4. 15. % Error Lower Confidence Bound Production Data	48
Table 4. 16. % Error Upper Confidence Bound Production Data.....	49
Table 4. 17. % Error Factors From Three Production Projections.....	49
Table 4. 18. Actual Production Data and Scenario 2 Projections	50
Table 4. 19. Average Actual Production of Solar Power Plants (PLTS)	52

Table 4. 20. Projection of Solar Power Plant Production	52
Table 4. 21. Actual of String Inverter Replacement Year.....	53
Table 4. 22. Actual Production of The Solar Power Plant From 2016-2023 Actual Production In Scenario 3 With String Inverter Replacement.....	54
Table 4. 23. Scenario 3 Total Projection Production of The Solar Power Plant (PLTS) Over 20 Years	54
Table 4. 24. Total Investment Cost.....	57
Table 4. 25 Case study of maintenance scenarios for a solar power plant.....	59
Table 4. 26. Parameter Maintenance Costs.....	60
Table 4. 27. Scenario 1 PV Maintenance Costs (2016)	61
Table 4. 28. Total LCC Costs For Scenario 1 Over a 20-Year Period. (PV 2016)	62
Table 4. 29. Routine Costs of Technical Labor Services For Solar Power Plants	65
Table 4. 30. Routine Costs of Helper Labor Services For Solar Power Plants.....	66
Table 4. 31. Average Annual Costs of Consumable Material or Routine Materials (Preventive Maintenance) For Solar Power Plants.	66
Table 4. 32. Routine Material Cost (Preventive Maintenance) PV (Present Value) Against The Initial Investment Year 2016.....	67
Table 4. 33. Maintenance Costs for Scenario 2 Estimated Cost Increase due to Inflation (IDR).....	68
Table 4. 34. Maintenance Costs For Scenario 2 (PV 2016).....	68
Table 4. 35. Total LCC Scenario 2 Over A 20-Year Period. (PV 2016)	69
Table 4. 36 .Replacement Costs for 25 String Inverters	71
Table 4. 37. Resume Replacement Costs for 25 String Inverters	71
Table 4. 38. Actual cost of corrective maintenance, excluding inverter replacement	72
Table 4. 39. Resume Actual Cost Of Corrective Maintenance, Excluding Inverter Replacement.....	73
Table 4. 40. Actual Cost Predictive Maintenance.....	73
Table 4. 41. Total LCC Costs for Scenario 3 Over 20 years. (PV 2016).....	73
Table 4. 42. Costs And Production Generated From 3 Scenarios.....	74
