

LIST OF FIGURES

Figure 2. 1 Empoasca Attack	6
Figure 2. 2 (a) Empoasca infestation on the lower leaf surface (b) Empoasca infestation on the upper leaf surface	7
Figure 2. 3 Multispectral Camera.....	8
Figure 2. 4 Multispectral camera capture (a) RGB Channel (b) Green Channel (c) NIR Channel (d) RED Channel (e) REG Channel.....	10
Figure 2. 5 Color map spectral	10
Figure 2. 6 Multilayer Perceptron	11
Figure 2. 7 Architecture Convolutional Neural Network.....	12
Figure 2. 8 Confusion Matrix of Multiclass	13
Figure 3. 1 Block Diagram of Data Acquisition	23
Figure 3. 2 Block Diagram of Data Training Model.....	24
Figure 3. 3 Processing Spectral Image	25
Figure 3. 4 Processing Thresholding.....	26
Figure 3. 5 Data Image Capture Experiment.....	27
Figure 3. 6 Dataset Collection Set Up.....	27
Figure 3. 7 Dataset Green (a) Healthy Leaves (b) Leaves Affected by Heavy Empoasca Infestation (c) Leaves Affected by Light Empoasca Pest Infestation (d) Leaves Affected by Other Pests	28
Figure 3. 8 Dataset NIR (a) Healthy Leaves (b) Leaves Affected by Heavy Empoasca Infestation (c) Leaves Affected by Light Empoasca Pest Infestation (d) Leaves Affected by Other Pests	28
Figure 3. 9 Dataset RED Healthy Leaves (b) Leaves Affected by Heavy Empoasca Infestation (c) Leaves Affected by Light Empoasca Pest Infestation (d) Leaves Affected by Other Pests	29
Figure 3. 10 Dataset REG (a) Healthy Leaves (b) Leaves Affected by Heavy Empoasca Infestation (c) Leaves Affected by Light Empoasca Pest Infestation (d) Leaves Affected by Other Pests	29
Figure 3. 11 Healthy Leaves Dataset (a) RGB Channel (b) Green Channel (c) NIR Channel (d) RED Channel (e) REG Channel.....	31

Figure 3. 12 Leaves Affected by Heavy Empoasca Infestation (a) RGB Channel (b) Green Channel (c) NIR Channel (d) RED Channel (e) REG Channel.....	31
Figure 3. 13 Leaves Affected by Light Empoasca Pest Infestation (a) RGB Channel (b) Green Channel (c) NIR Channel (d) RED Channel (e) REG Channel.....	32
Figure 3. 14 Leaves Affected by Other Pests (a) RGB Channel (b) Green Channel (c) NIR Channel (d) RED Channel (e) REG Channel	33
Figure 3. 15 Convolutional Neural Network Architecture.....	34
Figure 3. 16 ResNet-50 Architecture	36
Appendix A.1 Training and Validation Green Channel Using CNN (a) Training and Validation Accuracy Green Channel (b) Training and Validation Loss Green Channel.....	71
Appendix A. 2 Confusion Matrix Green Channel Using CNN.....	72
Appendix A. 3 Training and Validation Green Channel Using ResNet-50 (a) Training and Validation Accuracy Green channel (b) Training and Validation Loss Green channel.....	73
Appendix A. 4 Confusion Matrix of Green Channel Testing Using ResNet-50..	73
Appendix A. 5 Training and Validation Green Channel Using AlexNet (a) Training and Validation Accuracy Green channel (b) Training and Validation Loss Green channel	74
Appendix A. 6 Confusion Matrix of Green Channel Testing Using AlexNet	75
Appendix A. 7 Training and Validation NIR Channel Using CNN (a) Training and Validation Accuracy NIR Channel (b) Training and Validation Loss NIR Channel	76
Appendix A. 8 Confusion Matrix NIR Testing Using CNN.....	76
Appendix A. 9 Training and Validation NIR Channel Using ResNet-50 (a) Training and Validation Accuracy NIR channel (b) Training and Validation Loss NIR channel	77
Appendix A. 10 Confusion Matrix of NIR Channel Testing Using ResNet-50 ..	78
Appendix A. 11 Training and Validation NIR Channel Using AlexNet (a) Training and Validation Accuracy NIR channel (b) Training and Validation Loss NIR channel	79
Appendix A. 12 Confusion Matrix of NIR Channel Testing Using AlexNet.....	79

Appendix A. 13 Training and Validation RED channel Using CNN (a) Training and Validation Accuracy RED channel (b) Training and Validation Loss RED channel	80
Appendix A. 14 Confusion Matrix RED channel Testing Using CNN	81
Appendix A. 15 Training and Validation RED Channel Using ResNet-50 (a) Training and Validation Accuracy RED Channel (b) Training and Validation Loss RED Channel	82
Appendix A. 16 Confusion Matrix of RED Channel Testing Using ResNet-50 .	82
Appendix A. 17 Training and Validation RED Channel Using AlexNet (a) Training and Validation Accuracy RED Channel (b) Training and Validation Loss RED Channel	83
Appendix A. 18 Confusion Matrix of RED Channel Testing Using AlexNet.....	84
Appendix A. 19 Training and Validation REG Channel Using CNN (a) Training and Validation Accuracy REG Channel (b) Training and Validation Loss REG Channel	85
Appendix A. 20 Confusion Matrix REG Channel Testing Using CNN	85
Appendix A. 21 Training and Validation Reg Channel Using ResNet-50 (a) Training and Validation Accuracy REG Channel (b) Training and Validation Loss REG Channel	86
Appendix A. 22 Confusion Matrix of REG Testing Using ResNet-50.....	87
Appendix A. 23 Training and Validation Reg Channel Using AlexNet (a) Training and Validation Accuracy REG Channel (b) Training and Validation Loss REG Channel	88
Appendix A. 24 Confusion Matrix of REG Testing Using AlexNet	88
Appendix B. 1 Training and Validation Green and NIR Channel Using CNN (a) Training and Validation Accuracy Green and NIR Channel (b) Training and Validation Loss Green and NIR Channel.....	89
Appendix B. 2 Confusion Matrix Green and NIR Channel Using CNN	90
Appendix B. 3 Training and Validation Green and NIR Channel Using ResNet-50 (a) Training and Validation Accuracy Green and NIR Channel (b) Training and Validation Loss Green and NIR Channel.....	91
Appendix B. 4 Confusion Metrix Green and NIR Channel Using ResNet-50	91

Appendix B. 5 Training and Validation Green and NIR Channel Using AlexNet	
(a) Training and Validation Accuracy Green and NIR Channel	
(b) Training and Validation Loss Green and NIR Channel.....	92
Appendix B. 6 Confusion Matrix Green and NIR Channel Using AlexNet.....	93
Appendix B. 7 Training and Validation Green and RED Channel Using CNN	
(a) Training and Validation Accuracy Green and RED Channel	
(b) Training and Validation Loss Green and RED Channel	94
Appendix B. 8 Confusion Matrix Green and RED Channel Using CNN	94
Appendix B. 9 Training and Validation Green and RED Channel Using ResNet-50	
(a) Training and Validation Accuracy Green and RED Channel	
(b) Training and Validation Loss Green and RED Channel	95
Appendix B. 10 Confusion Matrix Green and RED Channel Using ResNet-50	96
Appendix B. 11 Training and Validation Green and RED Channel Using AlexNet	
(a) Training and Validation Accuracy Green and RED Channel	
(b) Training and Validation Loss Green and RED Channel	97
Appendix B. 12 Confusion Matrix Green and RED Channel Using AlexNet....	97
Appendix B. 13 Training and Validation Green and REG Channel Using CNN	
(a) Training and Validation Accuracy Green and REG Channel	
(b) Training and Validation Loss Green and REG Channel	98
Appendix B. 14 Confusion Matrix Green and REG Channel Using CNN.....	99
Appendix B. 15 Training and Validation Green and REG Channel Using ResNet-50	
(a) Training and Validation Accuracy Green and REG Channel	
(b) Training and Validation Loss Green and REG Channel	100
Appendix B. 16 Confusion Matrix Green and REG Channel Using ResNet-50	
.....	100
Appendix B. 17 Training and Validation Green and REG Channel Using AlexNet	
(a) Training and Validation Accuracy Green and REG Channel	
(b) Training and Validation Loss Green and REG Channel	101
Appendix B. 18 Confusion Matrix Green and REG Channel Using AlexNet.	102
Appendix B. 19 Training and Validation NIR and RED Channel Using CNN	
(a) Training and Validation Accuracy Green and REG Channel	
(b) Training and Validation Loss Green and REG Channel	103

Appendix B. 20 Confusion Matrix NIR and RED Channel Using CNN.....	103
Appendix B. 21 Training and Validation NIR and RED Channel Using ResNet-50	
(a) Training and Validation Accuracy NIR and RED Channel (b) Training and Validation Loss NIR and RED Channel	104
Appendix B. 22 Confusion Matrix NIR and RED Channel Using ResNet-50..	105
Appendix B. 23 Training and Validation NIR and RED Channel Using AlexNet	
(a) Training and Validation Accuracy NIR and RED Channel (b) Training and Validation Loss NIR and RED Channel	106
Appendix B. 24 Confusion Matrix NIR and RED Channel Using AlexNet.....	106
Appendix B. 25 Training and Validation NIR and REG Channel Using CNN (a) Training and Validation Accuracy NIR and REG Channel (b) Training and Validation Loss NIR and REG Channel	107
Appendix B. 26 Confusion Matrix NIR and REG Channel Using CNN.....	108
Appendix B. 27 Training and Validation NIR and REG Channel Using ResNet-50	
(a) Training and Validation Accuracy NIR and REG Channel (b) Training and Validation Loss NIR and REG Channel	109
Appendix B. 28 Confusion Matrix NIR and REG Channel Using ResNet-50..	109
Appendix B. 29 Training and Validation NIR and REG Channel Using AlexNet	
Training and Validation Accuracy NIR and REG Channel (b) Training and Validation Loss NIR and REG Channel	110
Appendix B. 30 Confusion Matrix NIR and REG Channel Using AlexNet.....	111
Appendix B. 31 Training and Validation REG and RED Channel Using CNN (a) Training and Validation Accuracy REG and RED Channel (b) Training and Validation Loss REG and RED Channel	112
Appendix B. 32 Confusion Matrix REG and RED Channel Using CNN.....	112
Appendix B. 33 Training and Validation REG and RED Channel Using ResNet-50	
(a) Training and Validation Accuracy REG and RED Channel (b) Training and Validation Loss REG and RED Channel	113
Appendix B. 34 Confusion Matrix REG and RED Channel Using ResNet-50.	114
Appendix B. 35 Training and Validation REG and RED Channel Using AlexNet	
(a) Training and Validation Accuracy REG and RED Channel (b) Training and Validation Loss REG and RED Channel	115

Appendix B. 36	Confusion Matrix REG and RED Channel Using AlexNet.....	115
Appendix C. 1	Training and Validation Green, NIR and RED Channel Using CNN	
(a)	Training and Validation Accuracy Green, NIR and RED	
(b)	Training and Validation Loss Green, NIR and RED.....	116
Appendix C. 2	Confusion Matrix Green, NIR, and RED Channel Using CNN..	117
Appendix C. 3	Training and Validation Green, NIR and RED Channel Using ResNet-50	
(a)	Training and Validation Accuracy Green, NIR and RED	
(b)	Training and Validation Loss Green, NIR and RED Channel.....	118
Appendix C. 4	Confusion Matrix Green, NIR, and RED Channel Using ResNet-50	
.....		118
Appendix C. 5	Training and Validation Green, NIR and RED Channel Using AlexNet	
(a)	Training and Validation Accuracy Green, NIR and RED	
(b)	Training and Validation Loss Green, NIR and RED Channel.....	119
Appendix C. 6	Confusion Matrix Green, NIR, and RED Channel Using AlexNet	
.....		120
Appendix C. 7	Training and Validation Green, NIR and REG Channel Using CNN	
(a)	Training and Validation Accuracy Green, NIR and REG	
(b)	Training and Validation Loss Green, NIR and REG Channel.....	121
Appendix C. 8	Confusion Matrix Green, NIR, and REG Channel Using CNN...	121
Appendix C. 9	Training and Validation Green, NIR and REG Channel Using ResNet-50	
(a)	Training and Validation Accuracy Green, NIR and REG	
(b)	Training and Validation Loss Green, NIR and REG Channel.....	122
Appendix C. 10	Confusion Matrix Green, NIR, and REG Channel Using ResNet-50.....	123
Appendix C. 11	Training and Validation Green, NIR and REG Channel Using AlexNet	
(a)	Training and Validation Accuracy Green, NIR and REG	
(b)	Training and Validation Loss Green, NIR and REG Channel.....	124
Appendix C. 12	Confusion Matrix Green, NIR, and REG Channel Using AlexNet	
.....		124
Appendix C. 13	Training and Validation RED, REG and Green Channel Using CNN	
(a)	Training and Validation Accuracy RED, REG and Green Channel	
(b)	Training and Validation Loss RED, REG and Green Channel.....	125

Appendix C. 14 Confusion Matrix RED, REG, and Green Channel Using CNN	126
Appendix C. 15 Training and Validation RED, REG and Green Channel Using ResNet-50 (a) Training and Validation Accuracy RED, REG and Green Channel (b) Training and Validation Loss RED, REG and Green Channel	127
Appendix C. 16 Confusion Matrix RED, REG, and Green Channel Using ResNet-50.....	127
Appendix C. 17 Training and Validation RED, REG and Green Channel Using AlexNet (a) Training and Validation Accuracy RED, REG and Green Channel (b) Training and Validation Loss RED, REG and Green Channel.....	128
Appendix C. 18 Confusion Matrix RED, REG, and Green Channel Using AlexNet	129
Appendix C. 19 Training and Validation REG, Green, and NIR Channel Using CNN (a) Training and Validation Accuracy REG, Green, and NIR Channel (b) Training and Validation Loss REG, Green, and NIR Channel	130
Appendix C. 20 Confusion Matrix RED, Green, and NIR Channel Using CNN	130
Appendix C. 21 Training and Validation REG, Green, and NIR Channel Using ResNet-50 (a) Training and Validation Accuracy REG, Green, and NIR Channel (b) Training and Validation Loss RED, Green and NIR Channel	131
Appendix C. 22 Confusion Matrix REG, Green, and NIR Channel Using ResNet-50.....	132
Appendix C. 23 Training and Validation REG, Green, and NIR Channel Using AlexNet (a) Training and Validation Accuracy REG, Green, and NIR Channel (b) Training and Validation Loss REG, Green, and NIR Channel	133
Appendix C. 24 Confusion Matrix REG, Green, and NIR Channel Using AlexNet	133
Appendix D. 1 Training and Validation Green, NIR, RED, and REG Channel Using CNN (a) Training and Validation Accuracy Green, NIR, RED, and REG Channel (b) Training and Validation Loss Green, NIR, RED and REG Channel	134

Appendix D. 2 Confusion Matrix Green, NIR, RED, and REG Channel Using CNN	135
Appendix D. 3 Training and Validation Green, NIR, RED, and REG Channel Using ResNet-50 (a) Training and Validation Accuracy Green, NIR, RED, and REG Channel (b) Training and Validation Loss Green, NIR, RED and REG Channel	136
Appendix D. 4 Confusion Matrix Green, NIR, RED, and REG Channel Using ResNet-50.....	136
Appendix D. 5 Training and Validation Green, NIR, RED, and REG Channel Using AlexNet (a) Training and Validation Accuracy Green, NIR, RED, and REG Channel (b) Training and Validation Loss Green, NIR, RED and REG Channel	137
Appendix D. 6 Confusion Matrix Green, NIR, RED, and REG Channel Using AlexNet	138
