

## PREFACE

All praise and gratitude go to Allah for His grace and guidance. This thesis entitled “Automatic Short Answer Scoring for the Indonesian Language” can be completed on time. This thesis was prepared as one of the requirements to obtain a Master’s degree in Informatics at Telkom University. In addition, this thesis contributes to Computer Science, especially in the field of Educational Technology with a focus on automated essay assessment. The process of writing this thesis is not free from various challenges. The author faced many obstacles, such as time spent searching for relevant journals, time-consuming data processing, conducting many experiments to achieve optimal results, and sometimes losing motivation and enthusiasm. The author realizes that this thesis still has shortcomings and can be further improved. However, the completion of this thesis would not have been possible without the guidance, direction, and support from many parties. Therefore, the author would like to express his deepest gratitude to all those who have contributed directly or indirectly in the preparation of this thesis.

Bandung,

RAVIKA AYU
