

LIST OF PICTURE

Figure 2.1 Satellite Communication System Architecture	10
Figure 2.2 Block Diagram of Satellite Functions	12
Figure 2.3 Block Diagram of Earth Stations in General	13
Figure 2.4 Satellite Model as Relay Connectivity between BTS	16
Figure 2.5 Simulation With BTS Between Sapudi Island And Raas Island Cant Be Reached By Underwater Fiber Optics	17
Figure 2.6 Network Configuration	18
Figure 2.7 Palapa Ring	19
Figure 2.8 One way Star Network	21
Figure 2.9 Two Way Star Network	21
Figure 2.10 Mesh Network	22
Figure 2.11 Hierarchical Structure of 2G and 3G Cellular Networks	23
Figure 3.1 Research Network Topology	33
Figure 3.2 Nusantara Satu Satellite	34
Figure 3.3 Flowchart Of Data Collection And Analysis	37
Figure 4.1 AZ/EL Calculator Coordinate Input	59
Figure 4.2 Elevation and Azimuth of Sapudi Island, Raas Island and Giligenting	60
Figure 4.3 Coverage Distribution of Sapudi Island & Raas Island.....	66
Figure 4.4 Frequency Spectrum	72
Figure 4.5 ITU Region Mapping.....	73
Figure 4.6 Separation Distance between Small Cell IMT and FSS	79
Figure 4.7 Construction of a protective shield on the FSS	80
