

DEDICATION

All praise and gratitude be to Allah SWT for His blessings, guidance, and strength, which have enabled me to complete this thesis.

This thesis is dedicated to my cherished parents, whose unwavering support and guidance have been the foundation of my journey. To my beloved wife, Anissa Adhani Hasan Kamal, and my daughter, Zhafira Khansa Syahab, whose boundless love, patience, and encouragement have been a constant source of strength through every challenge. I also dedicate this work to my entire family, whose steadfast support and inspiration have motivated me to strive for excellence.

I would also like to express my deepest gratitude to my first and second Thesis Supervisors for their invaluable guidance, insights, and knowledge throughout this research. My sincere appreciation extends to all the faculty members of the Postgraduate Program in Electrical Engineering at Telkom University for the education and expertise they have imparted during my studies.

This thesis would not have been possible without the love, sacrifices, and support of my family, as well as the mentorship and dedication of my supervisors and lecturers. May Allah SWT bless you all with His infinite kindness and rewards.
