LEMBAR PENGESAHAN	i
LEMBAR PERNYATAAN ORISINALITAS	ii
ABSTRAK	v
ABSTRACT	vi
FOREWORD	vii
ACKNOWLEDGMENTS	viii
TABLE OF CONTENTS	x
LIST OF FIGURES	xiii
LIST OF TABLES	xv
I IDEA PROPOSAL	1
1.1 General Problem Description	1
1.1.1 Objective	2
1.2 Problem Analysis	2
1.2.1 Technical Aspect	2
1.2.2 Economical Aspect	3
1.2.3 Social Aspect	3
1.2.4 Manufacturability Aspect	3
1.3 Analysis of Existing Solutions	3
1.4 Constraints & Tradeoffs of Proposed Solution	4
1.4.1 Dataset Quality and Quantity Constraints	4
1.4.2 Model Quality and Performance Tradeoffs	4
1.4.3 Mobile Application Performance	4
1.5 Conclusion	5

II	LITERATURE REVIEW	6
2.1	Literature and Related Works	6
2.1.1	F-RCNN and Inception V2	6
2.1.2	Symlet and Haar wavelet with k-NN	7
2.1.3	FishNET-T and FishNET-S	9
2.1.4	AutoML and Feature Extraction with Color Spaces (RGB, HSV, HSI, and $L^*a^*b^*$)	10
2.1.5	Color Histogram and Grey Level co-Occurrence Matrix . .	11
2.2	Basis for Determining Specifications	12
2.2.1	Government Regulations	12
2.2.2	Industry Standards	13
2.2.2.1	International Standards	13
2.2.2.2	Indonesia Standards	13
III	SYSTEM DESIGN AND SPECIFICATIONS	15
3.1	System Specifications	15
3.1.1	Hardware Requirements	15
3.1.2	Software Requirements	15
3.1.3	Dataset Specifications	15
3.1.4	Image Preprocessing Techniques	16
3.1.5	Image Augmentation Techniques	16
3.1.6	Optimizers and Learning Rate Schedulers	17
3.2	System Design	18
3.2.1	System Architecture Overview	18
3.2.2	Model Pipeline Design	18
3.3	Mobile Application Design	20
3.4	Google Firebase Design	27
3.5	Cloud Computing Design	27
3.6	Constraints and Specifications	28
3.6.1	Model Constraints and Specifications	28
3.6.2	Mobile Application Constraints and Specifications	28
3.6.3	Google Firebase Constraints and Specifications	29
3.6.4	Cloud Computing Constraints and Specifications	30
3.7	Specification Measurement and Verification	30
3.7.1	Model Specification Measurement	30
3.7.2	Mobile Application Specification Verification	31
3.7.3	Google Firebase Specification Verification	31
3.7.4	Cloud Computing Specification Verification	32

IV IMPLEMENTATION	33
4.1 General Description of Implementation	33
4.2 Implementation Details	33
4.2.1 Computer Vision and Deep Learning Model	33
4.2.2 Dataset Preprocessing	37
4.2.3 Dataset Augmentations	41
4.2.4 Mobile Application Design	45
4.2.5 Cloud Computing Design	48
4.2.6 Firebase Design	49
4.2.7 Solution Operating Procedure	50
V TESTING	51
5.1 System Testing Scheme	51
5.2 Project Testing Process	51
5.3 Results Analysis	53
5.3.1 Model Results	53
5.3.2 Mobile Application & Cloud Deployment Results	64
5.3.3 Inference Test Under 4G and WiFi	68
5.3.4 System Usability Scale	70
5.3.5 Mobile Application Usage Results Analysis	73
VI CONCLUSION AND RECOMMENDATIONS	75
6.1 Conclusions	75
6.2 Suggestions	76
