

LIST OF TABLES

3.1	Detailed statistics of the MIND dataset	26
3.2	Hyperparameter Configurations for Fine-tuning RoBERTa-Large	33
3.3	Baseline Models and Feature Scenarios for Comparison	34
4.1	Learning Rate Evaluation Results (batch size = 64)	37
4.2	Batch Size Evaluation Results (learning rate = 1×10^{-5})	38
4.3	Performance metrics of the proposed model across different values of the decay factor (λ)	38
4.4	Final Hyperparameter Configuration for RoBERTa-Large	39
4.5	Average performance of models without temporal features	42
4.6	Average performance of models with temporal features via time-decay mech- anism	42
4.7	Average computational cost per epoch without temporal features	43
4.8	Average computational cost per epoch with temporal features via time-decay mechanism	43
4.9	Recommendation Results for User ID U691476	44
A.1	BERT-Base with Feature Title only Performance Across 10 Runs	54
A.2	BERT-Base with Feature Combine (Title, Abstract and Date publication) Across 10 Runs	55
A.3	BERT-Large with Feature Title only Performance Across 10 Runs	55
A.4	BERT-Large with Feature Combine (Title, Abstract and Date publication) Across 10 Runs	56
A.5	DeBERTaV3 with Feature Title only Performance Across 10 Runs	57
A.6	DeBERTaV3 with Feature Combine (Title, Abstract and Date publication) Across 10 Runs	58
A.7	RoBERTa with Feature Title only Performance Across 10 Runs	59
A.8	RoBERTa with Feature Combine (Title, Abstract and Date publication) Across 10 Runs	60
A.9	RoBERTa with Feature Title only Performance Across 10 Runs	60
A.10	RoBERTa with Feature Combine (Title, Abstract and Date publication) Across 10 Runs	61
