

## Table of Contents

|                                                                           |    |
|---------------------------------------------------------------------------|----|
| Approval of the Graduate School of IT Telkom .....                        | 1  |
| <b>ABSTRACT</b> .....                                                     | 3  |
| <b>ABSTRAK</b> .....                                                      | 4  |
| <b>ACKNOWLEDGMENTS</b> .....                                              | 6  |
| <b>Table of Contents</b> .....                                            | 7  |
| <b>List of Tables</b> .....                                               | 9  |
| <b>List of Figure</b> .....                                               | 10 |
| <b>Chapter 1. The Problem</b> .....                                       | 11 |
| 1.1. Rationale .....                                                      | 11 |
| 1.2. Theoretical Framework .....                                          | 12 |
| 1.3. Conceptual Framework/Paradigm .....                                  | 12 |
| 1.4. Statement of the Problem .....                                       | 12 |
| 1.5. Hypotheses .....                                                     | 13 |
| 1.6. Assumption .....                                                     | 13 |
| 1.7. Scope and Delimitations .....                                        | 13 |
| 1.8. Importance of the Study .....                                        | 13 |
| 1.9. Definition of Terms .....                                            | 13 |
| <b>Chapter 2. Review of Literature and Studies</b> .....                  | 14 |
| 2.1. Document Matching .....                                              | 14 |
| 2.2. Latent Semantic Analysis .....                                       | 14 |
| 2.3. Singular Value Decomposition .....                                   | 16 |
| 2.4. Handling Numeric Data in LSA .....                                   | 19 |
| 2.5. Measurement .....                                                    | 23 |
| 2.5.1. Similarity .....                                                   | 23 |
| 2.5.2. Precision .....                                                    | 23 |
| <b>Chapter 3. Research Methodology</b> .....                              | 25 |
| 3.1. Research Design .....                                                | 25 |
| 3.1.1. Requirement .....                                                  | 25 |
| 3.1.2. Modelling System Development .....                                 | 26 |
| 3.2. System Implementation .....                                          | 27 |
| 3.3. Experiment Scenario .....                                            | 27 |
| 3.4. Population/Sampling .....                                            | 29 |
| 3.5. Instrumentation and Data Collection .....                            | 29 |
| 3.6. Tools for Data Analysis .....                                        | 29 |
| <b>Chapter 4. Presentation, Analysis and Interpretation of Data</b> ..... | 30 |
| 4.1. Experiment Result .....                                              | 30 |
| 4.1.1. Scenario 1 .....                                                   | 35 |
| 4.1.2. Scenario 2 .....                                                   | 36 |
| 4.1.3. Scenario 3 .....                                                   | 37 |
| 4.1.4. Scenario 4 .....                                                   | 38 |
| 4.1.5. Scenario 5 .....                                                   | 39 |
| 4.1.6. Scenario 6 .....                                                   | 40 |

|                                                         |                                            |           |
|---------------------------------------------------------|--------------------------------------------|-----------|
| 4.2                                                     | Summary Findings .....                     | 41        |
| 4.2.1                                                   | The Effect of Stopping Step.....           | 41        |
| 4.2.2                                                   | The Effect of Numerical Handling Step..... | 41        |
| 4.2.3                                                   | Optimal Rank $k$ Approximation.....        | 42        |
| <b>Chapter 5. Conclusions and Recommendations .....</b> |                                            | <b>44</b> |
| 5.1.                                                    | Conclusions.....                           | 44        |
| 5.2.                                                    | Recommendations.....                       | 44        |
| <b>Bibliography .....</b>                               |                                            | <b>45</b> |
| <b>APPENDICES .....</b>                                 |                                            | <b>46</b> |
| <b>Appendix A : Detail Result for Scenario 1.....</b>   |                                            | <b>46</b> |
| <b>Appendix B : Detail Result for Scenario 2.....</b>   |                                            | <b>52</b> |
| <b>Appendix C : Detail Result for Scenario3.....</b>    |                                            | <b>58</b> |
| <b>Appendix D : Detail Result for Scenario 4.....</b>   |                                            | <b>64</b> |
| <b>Appendix E : Detail Result for Scenario 5.....</b>   |                                            | <b>70</b> |
| <b>Appendix F : Detail Result for Scenario 6 .....</b>  |                                            | <b>76</b> |
| <b>Appendix G : CURRICULUM VITAE.....</b>               |                                            | <b>82</b> |
