

Abstract

Indonesia has a wonderful places. It makes there are many tourism places in Indonesia, from Sabang till Merauke. But it's still not covered all yet. There are many people in Indonesia it self don't know about the wealth of tourism places in Indonesia especially in uncovered places.

Therefore have been made an application "Wisatanesia" base on Windows Phone 8 to introduce or inform tourism places in Indonesia for all people in Indonesia and foreigner also. So that information of tourism places are able to be gotten in everywhere and every time by using mobile device.

Application "Wisatanesia" also be supported by administrator web so information of any kind tourism places of Indonesia can be updated periodically or depend on the real situation and condition of the recent tourism places.
